During the next academic year if parents send sweets with plastic wrappers, **the sweets will be sent back**. **Students are allowed to distribute sweets only in their class rooms.**

This year as you would have noticed no holiday homework has been given. It is important that students utilise their holidays as effectively as possible with equal emphasis on outdoor games and self-improvement activities. The importance of wide reading and language improvement has to be constantly kept in mind in the context of the CBSE syllabus and for improving communication skills. Students should be encouraged to read a number of books during the holidays. The time they spend on watching television and playing on the computer or play station should be limited. Please help the children to select good books in English, Malayalam and Hindi and encourage them to read widely since this improves their language and widens their perspective.

I would like to express my thanks to all the parents for their encouragement and support in all the school activities.

Interacting with our parents has been a gratifying experience for me during the academic year.

With regards and best wishes.

Yours sincerely,

Mrs. Susan Varghese Cherian
